

World Food Programme

SAVING LIVES
CHANGING LIVES

Job advertisement No. VA 052/2021

About WFP

The United Nations World Food Programme is the **world's largest humanitarian agency** fighting hunger worldwide and the **2020 Nobel Peace Prize Laureate**. The mission of WFP is to help the world achieve Zero Hunger in our lifetimes.

Why join WFP Somalia?

In Somalia, the World Food Programme provides food assistance for nutrition, livelihoods, and relief through the hard work of more than **500 employees** who contribute to make **Somalia hunger free** in close partnership with local partners.

Job title	IT Solutions Officer
Contract type/grade	Service Contract, SC-8
Duty station	Nairobi
Contract duration	1 year (initial)
Date of issue	13 th October 2021
Closing date	26 th October 2021

What will you do?

**THIS POSITION IS OPEN TO QUALIFIED KENYAN CANDIDATES
FEMALE CANDIDATES ARE ESPECIALLY ENCOURAGED TO APPLY**

- Develop and deploy IT systems aligned with business needs ensuring compliance with WFP IT policies, procedures, and overall information management strategy.
- Participate in identifying business needs and propose well-researched ideas for new or improved systems and solutions.
- Write detailed technical specifications for incoming and existing applications ensuring traceability back to source requirements. Adopt technical documentations for them for quality, accuracy, and comprehensive coverage of functionality.
- Install, configure, and customize IT systems, integrate, and migrate data between systems ensuring compliance with WFP's IT standards, guidelines and procedures.
- Work with a Data Analyst to collate, analyze data and report on IT activities, investments; Identifying ideas to increase cost-efficiencies.
- Engage with business units to identify, design, and implement business process automation tools using Office365, EasyVISTA or customized source code.
- Liaise with vendor technical teams and coordinate existing and new software developments by providing SDLC technical recommendations and guidelines that will ensure their quality or adherence to WFP corporate standards and tools; manage their reliability where hosted – Amazon AWS, MS Azure or other WFP approved hosting environments; assure vendor LTAs and SLAs.

- Execute and coordinate migration from Mobile Data collections and evaluation tool - ONA to WFP corporate solution – MODA; Migrate currently existing hosting environment and backup infrastructure to Azure.

Do you meet the minimum requirements?

- Advanced university degree in Computer Science, IT or software engineering or First University degree with additional years of related work experience.
- At least 4 years' experience in IT Solutions development and Cloud infrastructure
- Proficiency in oral and written communication in English is a must.

Are you competent for this job? Do you have

- Advanced training and/or experience in software development, business analysis and client support.
- Has collated data and prepared reports on IT/TC investment and costs in order to facilitate decision-making by stakeholders.
- Exposure on development of WFP systems, applications, and/or databases would be an added advantage.
