The minimum technical score St required to pass is: 70 Points

10.5 Technical Proposal shall not be considered for evaluation in any of the following cases:

a) Late submission, i.e., after the deadline set
b) Failure to submit any of the technical requirements and provisions provided under the Instruction to Service Provider/Consulting Firm (ITC) and Terms of Reference (TOR);

11. Financial Evaluation

11.1 After completion of the Technical Proposal evaluation, IOM shall notify those Service Providers/Consulting Firms whose proposal did not meet the minimum qualifying score or were considered non responsive based on the requirements in the RFP, indicating that their Financial Proposals shall be returned unopened after the completion of the selection process.

11.2 IOM shall simultaneously notify the Service Providers/Consulting Firms that have passed the minimum qualifying score indicating the date and opening of the Financial Proposal. The BEAC has the option to open the financial proposals publicly or not.

11.3 The BEAC shall determine the completeness of the Financial Proposal
whether all the Forms are present and the required to be priced are so priced.

11.4 The BEAC will correct any computational errors. In case of a discrepancy between a partial amount and the total amount, or between words and figures, the former will prevail. In addition, activities and items described in the Technical proposal but not priced, shall be assumed to be included in the prices of other activities or items.

11.5 The Financial Proposal of Service Providers/Consulting Firms who passed the qualifying score shall be opened, the lowest Financial Proposal (F1) shall be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals shall be computed based on the formula:

\[ S_f = 100 \times \frac{F_1}{F} \]

Where:

- \( S_f \) - is the financial score of the Financial Proposal under consideration,
- \( F_1 \) - is the price of the lowest Financial Proposal, and
- \( F \) - is the price of the Financial Proposal under consideration.

The proposals shall then be ranked according to their combined (Sc) technical (St) and financial (Sf) scores using the weights 5 (\( T = \) the weight given to the Technical Proposal = 0.80; \( F = \) the weight given to the Financial Proposal = 0.20; \( T + F = 1 \))

\[ Sc = St \times T\% + S_f \times F\% \]

The firm achieving the highest combined technical and financial score will be invited for negotiations.

12. Negotiations

12.1 The aim of the negotiation is to reach agreement on all points and sign a contract. The expected date and address for contract negotiation is 20th December 2018 at IOM Somalia Office in Mogadishu International Airport.

12.2 Negotiation will include: a) discussion and clarification of the Terms of Reference (TOR) and Scope of Services; b) Discussion and finalization of the methodology and work program proposed by the Service Provider/Consulting Firm; c) Consideration of appropriateness of qualifications and pertinent compensation, number of man-months and the personnel to be assigned to the job, and schedule of activities (manning schedule); d) Discussion on the services, facilities and data, if any, to be provided by IOM; e) Discussion on the financial proposal submitted by the Service Provider/Consulting Firm; and f) Provisions of the contract. IOM shall prepare minutes of negotiation which will be signed both by IOM and the Service Providers/Consulting Firms.
12.3 The financial negotiations will include clarification on the tax liability and the manner in which it will be reflected in the contract and will reflect the agreed technical modifications (if any) in the cost of the services. Unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates.

12.4 Having selected the Service Provider/ Consulting Firm on the basis of, among other things, an evaluation of proposed key professional staff, IOM expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, IOM shall require assurances that the experts shall be actually available. IOM will not consider substitutions during contract negotiation unless both parties agree that the undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that staff were referred in their proposal without confirming their availability the Service Provider/ Consulting Firm may be disqualified. Any proposed substitution shall have equivalent or better qualifications and experience than the original candidate.

12.5 All agreement in the negotiation will then be incorporated in the description of services and form part of the Contract.

12.6 The negotiations shall conclude with a review of the draft form of the Contract which forms part of this RFP (Section VI). To complete negotiations, IOM and the Service Providers/ Consulting Firms shall initial the agreed Contract. If negotiations fail, IOM shall invite the second ranked Service Provider/ Consulting Firm to negotiate a contract. If negotiations still fail, the IOM shall repeat the process for the next-in-rank Service Providers/ Consulting Firms until the negotiation is successfully completed.

13. Award of Contract

13.1 The contract shall be awarded, through a notice of award, following negotiations and subsequent post-qualification to the Service Provider/ Consulting Firm with the Highest Rated Responsive Proposal. Thereafter, the IOM shall promptly notify other Service Providers/ Consulting Firms on the shortlist that they were unsuccessful and shall return their unopened Financial Proposals. Notification will also be sent to those Service Providers/ Consulting Firms who did not pass the technical evaluation.

13.2 The Service Provider/ Consulting Firm is expected to commence the assignment on 1st January 2019.

14. Confidentiality

14.1.1 Information relating to the evaluation of proposals and recommendations concerning awards shall not be disclosed to the Service Provider/ Consulting Firm who submitted Proposals or to other persons not officially concerned with the process. The undue use by any Service Provider/ Consulting Firm of confidential information related to the process may result in the rejection of its Proposal and may be subject to the provisions of IOM’s anti-fraud and corruption policy.

Assessments and Third-Party Monitoring in Benadir Regional Administration and Jubaland, South West, Hirshabelle, and Galmudug States, Somalia

Agency: International Organization for Migration (IOM)
Duty Station: Home-based and field missions
Duration: 2 years
Tentative start date: 15 December 2018

CONTEXT

IOM’s Recovery and Durable Solutions (RDS) Unit is implementing various projects (including joint projects) that aim to promote durable solutions to displacement, stability, and peace in Benadir and Jubaland, South West, Hirshabelle, and Galmudug States. IOM’s approach is twofold:

- The “Midnimo” approach centers on government-led, community driven inclusive consultations and development planning, followed by the implementation of community prioritized projects and sports/cultural events. This approach aims to set the foundations for governance and cohesion.
- Stabilization and early recovery grants aim to quickly respond to an opening that can make space for initiatives that further stability and peace.

IOM RDS primarily targets displacement affected communities, as well as those affected by conflict and violent extremism. IOM requires technical support to carry out a variety of monitoring activities and services at district and sub-district level throughout Somalia. These include: area surveys for qualitative and quantitative analysis; and periodic monitoring and data gathering missions on an as-needed basis.

GEOGRAPHIC COVERAGE

Benadir Regional Administration and Jubaland, South West, Hirshabelle, Galmudug States

SCOPE OF SERVICES

Data collection and monitoring exercises will be requested by IOM ad hoc and cover specific districts across four Somali states (Jubaland, Southwest, Hirshabelle, and Galmudug) and the Benadir Regional Administrative Area. All relevant stakeholders (government officials and representatives, community members, and local partners) who participated in the implementation of the project will also be consulted. The monitoring exercises are expected to provide information that enables IOM and its partners to develop future strategies to further improve programme interventions.
PURPOSE OF THE MONITORING

The objective of monitoring exercises is to assess the effectiveness of IOM Recovery and Durable Solutions (RDS) Unit’s projects. The primary purpose of the Third-Party Monitoring (TPM) service provider is:

- To conduct monitoring and assessment exercises that will verify whether funded projects were implemented as per the proposals.
- To provide the required levels of assurance and satisfaction from beneficiaries to the primary stakeholders.
- To ensure that projects were delivered efficiently in compliance with donor requirements.

Information generated from the TPM service provider intends to:

- Ensure accountability by allowing recipients to share feedback in a safe, secure and dignified manner.
- Provide a participatory opportunity for beneficiaries in decision-making that affects their lives.
- Facilitate lessons learned and best practices for accurate and objective feedback.
- Identify challenges and recommends corrective actions that will address the needs of the affected population appropriately and efficiently.

MONITORING METHODOLOGY

Monitoring will be conducted by an external, independent, third-party monitoring service provider. The TPM service provider, selected through an open tendering process and managed by IOM RDS Unit, will be expected to develop the details of the methodology for conducting the specific monitoring exercises.

The TPM service provider will be guided by the ‘IOM Data Protection Principles’ as illustrated in the ‘Data Protection Manual’ that demands data principles of: protection and security, collection and processing, ownership, ethical considerations (confidentiality and consent), accuracy and consistency, compliance, and transparency. These principles will coordinate and guide the TPM service provider during surveys.

IOM will provide the TPM with activity details that require monitoring. The list will contain location and beneficiary contact information. If beneficiary contact information is not available on the list, information of the local authority and IOM’s focal point will be provided. IOM requirements will determine the sample and range of beneficiaries. The TPM service provider will ensure information flow and procedures are well coordinated with IOM through the RDS Unit for transparency and consistency throughout the process.

6 https://publications.iom.int/books/iom-data-protection-manual
interviews will be conducted in line with humanitarian principles of “do-no-harm” and IOM policies and code of conduct.

IOM RDS Unit requires the TPM service provider to provide a work and compensation plan for the following suite of services:
